CINEOS Flat TV with Perfect Pixel HD Engine

Perfect Pixel HD ENGINE

Perfect Pixel HD Engine offers the unique combination of ultimate sharpness, natural detail, vivid colors and smooth natural motion on all qualities of HD, standard TV signals and multimedia content, for high definition displays. Each pixel of the incoming picture is enhanced to better match the surrounding pixels, resulting in a more natural picture. Artifacts and noise in all sources from multimedia to standard TV and also in highly compressed HD contents are detected and reduced ensuring that the picture is clean and razor sharp.
